Publication Details	Notes
Mountains Of The Moon 2011 Cape	A woman in her thirties is released from prison, equipped with a new name and not much else. As she tries to fall on her feet again, we learn about who she is and what got her there in the first place. The story that unfolds, slowly, from different angles, is the electrifying account of somebody living outside society, without any safety net. It's the story of a broken life that, against all the odds, amounts to something utterly beautiful.
