

Ti Green

Set and Costume Designer

Article Green is a new sustainable fashion label launched by Ti Green in 2020. She describes her clothes as 'Everyday Costume' - cut to give a sense of poise and purpose, while also fitting seamlessly into the daily wardrobe of the modern creative. The production process is based on the guidance of sustainable fashion and circular economy educators. They use natural textiles, grown using environmentally sustainable methods, and the colours are achieved using OKEO-tex certified, non-toxic dyes.

10% of all Article Green sales are going to the Commissioning Fund at Bristol Old Vic Theatre.

Shop online [here](#) and read more about this brilliant venture in [this article](#) by Kate Salter in The Guardian.
